

SAHIL SUTHAR

Ahmedabad, Gujarat

sahilsuthar.238@gmail.com — +91 9414843616 — LinkedIn — GitHub

EDUCATION

Gandhinagar University, Gandhinagar

2024 – 2028

B.Tech in Computer Science Engineering

TECHNICAL SKILLS

Languages	Java, Python, C
Web Technologies	HTML, CSS, JavaScript
Backend & APIs	Flask, JDBC, REST APIs
Databases	MySQL, SQL
Libraries	NumPy, Pandas, Matplotlib
Tools	Git, GitHub, VS Code
Core Concepts	OOP, DSA, CRUD Operations, Exception Handling

PROJECTS

Bank Management System

Java, JDBC, MySQL

- Built a console-based banking application in Java with a MySQL backend, supporting account creation, search, deposit, withdrawal, balance inquiry, and deletion.
- Implemented all database operations with JDBC `PreparedStatement` and `ResultSet` to prevent SQL injection and ensure type-safe queries.
- Engineered fund transfers using ACID-compliant transactions (commit/rollback) to guarantee data consistency on partial failures.
- Added transaction history logging, input validation, and a professional README for public release on GitHub.

Weather Application

Python, Flask, REST API

- Built a Flask web application that fetches and displays live weather data via a third-party REST API.
- Handled HTTP requests and parsed JSON responses to extract and present relevant weather metrics.
- Designed a simple, user-friendly interface for entering a location and viewing results.

ToDo List Application

Python, PyQt5

- Developed a desktop task-management app in Python with a PyQt5 GUI.
- Implemented add, delete, mark-complete, and clear-all task functionality.
- Designed an intuitive graphical interface focused on ease of use.

RELEVANT COURSEWORK

Data Structures and Algorithms	Object-Oriented Programming
Database Management Systems	Computer Programming
Data Analysis	Computer Networks
Computer Architecture	Cybersecurity Fundamentals

TECHNICAL PRACTICE

- Regularly solve DSA problems in Java and Python (graph algorithms, KMP string matching); write and optimize SQL queries and JDBC-based applications; build personal projects end-to-end, from design through documentation.
